

## A word from Phil...

### about organ donation

*"I'm here today because I received an organ transplant in December of 1998. My family and I bless the people who made this noble and generous decision.*

*More than 65,000 Americans are waiting for a life saving organ transplant. Every day, 12 people will die while waiting; every 16 minutes another name is added to the waiting list.*

*If you decide to become an organ donor, please, discuss it with your loved ones and carry a signed donor card. Be sure your wishes are known in advance.*

*It's really important. It's a matter of life"*

## Unbroken Chain Foundation

The Unbroken Chain Foundation is a nonprofit organization created in the spring of 1997 by Grateful Dead bassist Phil Lesh and friends. Unbroken Chain seeks to perpetuate the remarkable three-decade relationship between the Dead and their audience.

The Foundation's mission is to generate support for and public awareness of, groups and individuals that bring hope and inspiration to our communities.

You could help 50 people if you decide to donate your organs and tissues when you pass on. Make a difference, tell your loved ones and identify yourself as a donor in writing. Keep building the Unbroken Chain.

## Imagine

Your heart could beat for someone  
Your lungs could breathe for someone  
Your kidneys could free two people  
from dialysis

Your liver could save the life of a person  
awaiting transplantation

Your corneas could give two people sight  
Your bone could help repair damaged joints  
Your skin could heal many burn victims
